PROFILE

Passionate Full Stack Developer with strong skills in Java and modern web technologies. Recently graduated from Chitkara University with hands-on experience in backend development using Node.js. Experienced in debugging real-world applications, improving system performance, and building scalable solutions. Strong problem-solving mindset with a focus on Data Structures and efficient coding practices.

EDUCATION

- Chitkara University** India
Bachelor of Technology - Computer Science Engineering; CGPA: 6.9 2021 - 2025
Courses: Data Structures, Algorithms, Operating Systems, DBMS, Computer Networks

SKILLS SUMMARY

- Languages:** Java, JavaScript, SQL
- Frameworks:** Node.js, Express.js, React, Tailwind CSS
- Tools:** Git, MongoDB, MariaDb
- Platforms:** Web
- Concepts:** Data Structures and Algorithms, Backend Development

EXPERIENCE

- Kommuno Technologies** India
Full Stack Developer Dec 2025 - Present
 - Performed product testing for 1.5 months and identified critical bugs.:**
 - : -2pt Fixed backend issues including contact listing and exact time calculations.
 - Improved customer number handling using substring to integer conversion.:**
 - : -2pt Resolved scheduled call feature and implemented correct mapping.
 - Worked on CRM JSON validation between development and production environments.:**

PROJECTS

- Shopora - E-commerce Platform (React, Node.js, MongoDB):** Full-stack e-commerce application with admin panel. Implemented product, user, and order management along with backend APIs for scalable architecture.
- AI Voice Assistant (Node.js, APIs, LLM):** Built an AI-based voice assistant that converts speech to text, processes it using LLM APIs, and converts responses back to speech, enabling real-time interaction.
- Portfolio Website (React):** Developed a personal portfolio website with responsive UI to showcase projects and technical skills.

ACHIEVEMENTS

- Strong understanding of Data Structures and Algorithms
- Experience working on real-world backend applications
